2. [], Office of Basic Intelligence, called in connection with the Printing Services' NIS Program. He said that [] had told him that General Cabell wanted to see us sometime on this subject. He feels that if we continue to authorize overtime for the remainder of this year we will have the longer range problem in hand. I told him that I would withhold my views until I had seen the Management study, which I understand has been completed, after which I would get in touch with him for a conference before seeing General Cabell.

Insofar as the position is concerned I also told them that this would be filled by the Administration Board in the normal manner and that any candidate which they would care to recommend would be given consideration.

6. I met with [] Office of Training, to discuss the Regulations Workshop. [] is a writer rather than a regulations expert, but I believe that he will conduct a good course.
